Dear Hiring Manager,

I am writing to express my keen interest in a Front-end Developer position, leveraging my comprehensive experience in design, web development, business management, and e-commerce operations. My profile aligns perfectly with the demands of a dynamic development role, where I can apply my results-driven approach and diverse skill set.

My career journey has equipped me with a unique blend of creative and technical expertise. As a Design Leader at Bora Lifestyle, I not only coordinated a design team and managed projects, but also gained hands-on experience as a Manager and Tester for e-commerce systems (Vtex and Linx). This included optimizing website performance and search engine visibility, as well as problem-solving and negotiation with major marketplaces. This experience instilled in me a strong understanding of the full lifecycle of web projects, from conception to optimization.

In addition to my leadership and e-commerce background, I have a strong foundation in web development technologies, including HTML/CSS/Javascript, React.js, Python (Selenium), Node.js, and I'm currently studying and developing backend projects in Java. My work developing visual solutions, landing pages, and social media content as a Designer at Turn Trust and a Freelance Graphic Designer for Estúdio Fosco and All Doctors, demonstrates my ability to bridge the gap between aesthetic design and functional implementation. My certifications in Google Cybersecurity Professional, Google Professional Data Analytics, and Meta Professional Front-End further underscore my commitment to continuous learning and staying current with industry best practices.

I am confident that my combined experience in design, web development, and e-commerce, coupled with my strong analytical and problem-solving skills, make me a valuable asset for companies driven by results and growth. I am eager to contribute my expertise to create impactful digital experiences.

Thank you for your time and consideration. I look forward to the opportunity to discuss how my skills and experience can benefit your organization.

Warm regards,

João Pedro Barboza
